

# Clear Choice Financial Group, LLC

Clear Choice Financial Group, LLC (CCFG) is our newest acquisition that was originally a mortgage brokerage firm. It divested its assets of the mortgage firm and turned its focus to educating small business owners on methods how to reduce taxation and maximized their benefit programs.

With the assistance of their sister company Capital Administrators, LLC they are able to provide today's business with competitive pension programs that allows the employer a larger percentage of the contribution. Or helping the one person shop owner provide more deduction through the new solo plan that exceeds the IRA contribution levels.

For the employers that want to compensate their key person and not other employees there are a few unique plans available and with the help of CCI's attorney and accountants it can be designed just to fit them.

Some employers would like to sell their business to their employees and receive an income from it for life times. This could be structured by use of an ESOP plan or a specially designed annuity program.

When it comes to design and knowledge regarding the small business owner you will find CCFG a step ahead. Add the benefits of having the support and knowledge of the various 5 Cees companies makes them a leader in their field of expertise.

For help or assistance you can contact them at the 5 Cees Administrative offices at 800-949-1485 or [capital@5cees.com](mailto:capital@5cees.com).
